

Red flags of the COVID-19 agenda

The Vatican reminds us that the “evaluation [of the vaccines] is the responsibility of biomedical researchers and drug agencies.” [\[CDF\]](#) The question is, are they fulfilling their responsibility? The Vatican’s Pontifical Academy for life wrote in 2005:

There remains a moral duty to continue to fight and to employ every lawful means in order to make life difficult for the pharmaceutical industries which act unscrupulously and unethically. [PAL](#)

The mainstream media is the mouthpiece for the official COVID-19 narrative, but we need also to listen to experts who are being censored. Only then can we make our own informed decisions. It is common practice to get a second opinion after we go to a doctor; It is the same with the vaccine. We have a right and a duty to care for our health and the health of others by listening to different experts before we decide what measure to take.

The following “Red flags” raise my concern, not about science or vaccines in general, which have saved many lives in the past, but about this particular vaccine and the ideology of those behind it. I share these red flags as they may be helpful to others, but you need to come to your conclusions.

Red flag #1: Vaccine effectiveness vs. Adverse effects

It is said: “COVID-19 is killing people, so why refuse the vaccine?” Before using the vaccine, there are important considerations to take into account, as we do with any medicine:

- Evaluate benefits (effectiveness) vs adverse reactions (safety)
- Are there others ways to protect oneself and others from the virus? (see red flag #2)

■ Effectiveness — Do vaccines stop the spread of the virus?

- **The vaccinated—even with booster shots—are getting infected and spreading the virus.** [The Lancet Journal](#)
- Infected vaccinated and unvaccinated persons carry the same viral load. [\[here\]](#)
- U.S. Surgeon General Jerome Adams, *Good Morning America*, Dec 14, 2020: “They (vaccines) were tested with an outcome of severe disease — not preventing infection.”
- “Data Show the COVID Jabs Have No Impact on Infection Rates” [\[here\]](#)

Examples

- **The Omicron variant was first detected in Botswana in four fully vaccinated persons.** [\[here\]](#) The first U.S. Omicron patient was fully vaccinated [\[here\]](#), the first two cases detected in Australia were also fully vaccinated. [\[here\]](#).
- Large COVID-19 outbreaks in 97% vaccinated institutions, Dec 2021 [\[here\]](#)
- 49.88% of COVID patients at Houston hospital are vaccinated.

- The majority of airline employees with Omicron are vaxxed, Dec 2021 [\[here\]](#)
- July of 2021– 469 cases of COVID-19 were identified in a town in Massachusetts; 74% of them were fully vaccinated persons. Of the five who were hospitalized, four were fully vaccinated. The CDC concluded: masks are still required for the vaccinated [\[here\]](#).
- Fully vaccinated cruise ships have repeatedly tested positive for the virus. [\[here\]](#) [\[here\]](#) [\[here\]](#)
- U.S. warship has COVID outbreak among fully vaccinated crew [\[here\]](#)

Vaccines are available to all, and 70% of the population in the USA is vaccinated. (Dec. 2021) If they work, why would the unvaccinated be a threat, and why force them to get the vaccine?

■ Do vaccines reduce the risk of severe illness and death?

According to many reports, this is true. I present here some concerns:

- 🖱️ **”COVID-19 vaccines do more harm than good”.** [\[video by Canadian doctors\]](#)
Excellent explanation. Addresses the claim that Pfizer trials showed 95% efficacy in preventing the disease.
- **The data, even from the official agencies, is highly conflicting.** While some countries (ex. Canada) report that most COVID hospitalizations and deaths are among the unvaccinated, others say the opposite:
 - U.K.: Vaccinated make up 80% of COVID deaths (official U.K. Health source [linked here](#))
 - Israel: “Nearly 60% of hospitalized COVID-19 patients are fully vaccinated” [\[here\]](#)
 - British Columbia: COVID deaths in Oct. 2021: 82 fully vaccinated, 8 partially vaccinated, 89 unvaccinated. [\[here\]](#)
 - Hospitalization in Ontario: [\[here\]](#)
- **Vaccine effectiveness is temporary;** that is why there is an insistence on booster shots.
 - “People who received two vaccine shots walk around feeling they are protected... They don’t understand that the second has faded against the ‘Delta.’... They must quickly get vaccinated with the third dose!” – Israel’s prime minister, Naftali Bennet, August 2021.

■ Vaccine Adverse effects

- **The VAERS (Vaccine Adverse Event Reporting System) is estimated to account for only 1% to 10% of vaccine injuries. As of this writing (Dec 24, 2021), it reports 1,859,663 injuries and 21,002 COVID vaccine deaths [see update [here](#)].**
- 🖱️ **Increase in the total amount of deaths in the population, most not COVID.** After the vaccination of most Americans (2021), there is an increase in total deaths in the population, most not COVID-related. It begs the question: what is killing them? The cause of death may be reported as (heart attacks, blood clots, etc.) but what is causing the increase?

- **Death rates are up 40%** over pre-pandemic among working-age people and most are not from COVID. “A one-in-200-year catastrophe would be a 10% increase over pre-pandemic, so 40% is just unheard of.” Also, disabilities are up. ~[insurance CEO](#).
- **The higher the vaccination rate, the more excess mortality.** [\[here\]](#)
- Thousands of healthy people are dying unexpectedly, but our public health agencies assure us that the COVID jab did not cause their deaths. [\[Dr. Jane M. Orient\]](#)
- 44% Increase in young teen deaths after vaccine rollout in U.K. [\[here\]](#)
- **Scientists in the U.K. call to stop COVID-19 vaccines** as “not safe for human use.” [\[here\]](#)
- **American Heart Association’s warning:** “mRNA COVID Vaccines Dramatically Increase Endothelial Inflammatory Markers and ACS” [\[here\]](#) (not even the AHA escapes media censorship! [\[here\]](#))
- **Reports of shingles and Bell’s Palsy following COVID-19** vaccination point to dangerous immunosuppression, with short and long-term implications, including cancer and pregnancy. [Doctors4COVIDethics](#)
- **Pregnancy and vaccines**
 - [Stillbirths](#)
 - [Researchers call for a halt on the COVID-19 vaccine for pregnant women.](#)
- **Johnson & Johnson Vaccine elevates risks** [\[here\]](#)
- **A universal vaccination policy could backfire**
 - [Dr. Robert Malone, inventor of the mRNA vaccine](#)
 - [Dr. Peter McCullough](#)
- Can we trust the CDC when they are not revealing the known facts about risks on their [side effects page?](#) (8/31/21) It only mentions mild reactions and does not mention: Death, disability, miscarriage, heart attacks, paralysis, blindness, Bell’s Palsy, Parkinson’s like symptoms, re-activation of shingles, blood clots, etc.... **But all of the above is occurring.**
- **Physicians speak out**
 - **Eleven physicians go public** with their stories in hopes other doctors and the federal government start taking vaccine safety more seriously. These physicians and their patients all supported the Covid-19 vaccine. [\[Catholic World Report\]](#)
 - Dr. Peter McCullough, cardiologist, Senior Professor of Internal Medicine at the Texas A&M University Health Sciences Center, has called for a **halt to vaccinating 30-year olds** due to “no clinical benefit” and safety concerns. [\[here\]](#)
 - **Open letter from [Doctors and Scientists regarding COVID-19 vaccine safety.](#)**
 - **Dr. Malone’s page on the vaccine’s adverse effects** [\[here\]](#)
 - [Doctors are concerned](#) that the mRNA vaccine does not remain at the injection site but instead appears to spread and concentrate in organs, including ovaries and spleen.
 - Vaccine corruption and danger. [Judy Mikovits PhD](#)
 - COVID-19 vaccine concerns [Sharyl Attkisson](#)
 - Dr. Merritt, a U.S. Navy physician, reports that all through 2020, there were 20 deaths among all active-duty military personnel related to COVID. However,

following the COVID-19 shots, there are many reports of tumors and over 80 cases of myocarditis (inflammation of the heart), with a 5-year mortality rate of around 66%. "With the vaccine program, we've ostensibly killed more of our young active-duty people than COVID did" [[Here](#)].

- **Testimonies.** vaxtestimonies.org (Israel)

Red flag #2: Prevention and Treatments are Forbidden

An important factor in discerning vaccination is evaluating the options, but this is blocked by government agencies. They tell us that there is no cure and no therapy, so all must be vaccinated. [[here](#)]

Most people recover from COVID. Doctors speak up as to why some don't:

- 📌 **At least 85% of people who died from COVID in the U.S. would have survived if they had received adequate early treatment** ~ Dr. Peter McCullough [[here](#)]
- 📌 **95% of those who died of COVID had other comorbidities and underlying conditions** that contributed to death, such as heart disease, high blood pressure, obesity, cancer, or diabetes. [[here](#)] This means that COVID was only one factor.
- 📌 **Taking care of your health is essential to the immune system: losing excess weight, exercising, and a good diet, reduce significantly the danger of dying from COVID.**
 - *Pandemic Contributors We Don't Talk About* [[here](#)]
 - There is no attention to the severe consequences of immune system degradation from multiple toxic stressors (chemical, physical, biological, psychosocial stressors) [[here](#)]. Much could be done to reduce many of these. Instead, the problem is exacerbated by mandates leading to stress, suicide, mental illness, and social breakdown.

■ Prevention and Treatment Protocols

These were developed by infectious disease specialists and have been used by doctors successfully with hundreds of patients yet remain forbidden.

- Dr. Zelenko has treated thousands of patients, including President Trump, with a protocol that can be used at home. [[here](#)]
- Canadian Covid Care Alliance [[here](#)]
- Prevention & Treatment Protocols for COVID-19 [[here](#)]
- [FLCCC](#)
- "The virus that causes COVID-19 is very, very easily treatable if early treatment is done with off-label drugs," ~Dr. Syed Haider. He has treated more than 4,000 COVID-19-positive patients so far during the pandemic. Just five ended up going to a hospital, and none have died. His preferred treatments include many off-label medications along with vitamins and supplements. [[here](#)]

■ The essentials of this protocol:

- **Vitamin D.** 70 to 80 % of Americans are Vit. D deficient and are therefore more vulnerable to COVID. –[Dr. Ryan Cole](#) [Vit.D deficiency is linked to COVID deaths](#); See also: [\[here\]](#) [\[here\]](#).
- **Zink.** [Known to be an anti-viral mineral](#). It impairs viral replication.
- **Ivermectin [information](#).** Ivermectin has been shown effective in 31 randomized controlled trials[\[here\]](#) and is known to be safe.
 - **Yet, gov. agencies claim that there are not enough studies** of these treatments and that their effectiveness is “largely observational” or “anecdotal”; insufficient data.”
 - Ivermectin efficiency confirmed by top doctors [\[here\]](#)
 - In Mexico, the IMSS (health agency) found a 70-80% reduction of hospitalizations in the group using Ivermectin. Similar studies were done in India and other countries.
 - [PubMed.gov, August 2021](#): “Since March 2020, when IVM was first used against a new global scourge, COVID-19, more than 20 randomized clinical trials (RCTs) have tracked such inpatient and outpatient treatments. Six of seven meta-analyses of IVM treatment RCTs reporting in 2021 found notable reductions in COVID-19 fatalities, with a mean 31% relative risk of mortality vs. controls... During mass IVM treatments in Peru, excess deaths fell by a mean of 74% over 30 days in its ten states with the most extensive treatments. Reductions in deaths correlated with the extent of IVM distributions in all 25 states with $p < 0.002$.”
- **The word about Ivermectin spreads thanks to courageous doctors and the testimony of people who have used it successfully.**
 - Dr. Joseph Varon MD was frequently interviewed for his dramatic success using the MATH+protocol, including Ivermectin, with COVID-19 patients. This is a protocol that CDC and WHO advise against. When asked: “Have any reporters told you they were banned from covering these COVID treatments?” His response: “I was told that not once but multiple times.” Dr. Varon says that Big Tech also censors him. He concludes: “I totally believe what we are dealing with here are economic interests.” Yet he perseveres: “There is no reason for people to die. We have options for patients. We just need to make those options available [\[here\]](#).”
 - Florida Surgeon General supports COVID prevention strategy [\[here\]](#)
 - According to [pro-vax Dr. Pierre Kory MD](#), Ivermectin is rejected because it is cheap and presents a threat to the pharmaceutical industry's profits.

Others to consider:

- **Nebulized Hydrogen Peroxide.** A simple home treatment using food grade Hydrogen Peroxide at 0.1 concentration [\[here\]](#)
 - **Also,** Hydrogen Peroxide 1% diluted in neti pot to rinse nose and mouth
- **Quercetin** [\[here\]](#)

■ The Government’s war against COVID-19 prevention and treatments

The federal government, pharmaceutical, and insurance companies dictate what care hospital administrators can offer. They ban information and the use of treatments, such as Ivermectin, even when they know them to be safe. They can't (yet) forbid other essentials such as Vitamin D and Zinc; instead, they withhold information about their role in preventing COVID-19.

Incentive: Sick people are profitable. [Here is why.](#)

Results:

- **Doctors and scientists are silenced when they present evidence that [what is killing people](#) is the wrong protocol perpetuated by the system.**
- **Doctor fired for trying to treat patients with Ivermectin [\[here\]](#)**
- **People with COVID are told to stay home until they are sick enough to need hospitalization.** In the meantime, they are not informed about the protocols mentioned above.
- **The sale of Ivermectin for COVID is forbidden** even with a doctor's prescription.
 - The government claims that people could overdose with Ivermectin. (People can "overdose" with any substance, even aspirin).
- **Hospitals are not allowed to use Ivermectin.** Patients and families have lost the right to seek alternative treatments, even when the hospital declares that there is nothing they can do for the patient. Even if the patient has a doctor's prescription for Ivermectin, he is forced to hire a lawyer and get a court order when time is of the essence. [\[here\]](#) [\[here\]](#)
- **The inexplicable suppression of Hydroxychloroquine, Ivermectin, and other COVID-19 treatments [\[here\]](#)**
- The media supports government policy by discrediting Ivermectin. [\[here\]](#)
- Could the pharma lobbies want no competition to the vaccine and the anti-viral pills that Merk and Pfizer are developing?

How About Academic Journals?

- Few scientists and doctors are independent. They work for agencies or universities that, in turn, depend on government and pharma money.
- Example: [Hydroxychloroquine](#) is an effective treatment that lowers the death rate of COVID patients, but it is inexpensive and ruins the interests of Big Pharma. *The Lancet* and *The New England Journal of Medicine*, both premier medical science journals, [published fraudulent studies](#)¹ that discredited the use and had to retract them.

Red flag #3: Corruption

■ **Regulatory agencies exist to protect the people, but they have lost credibility as they are curtailing civil rights using COVID-19 as a pretext.**

- The CDC and FDA issue guidance with the authority of federal law, telling us that vaccines are the **only viable path back to a free society.**

¹ <https://www.webmd.com/lung/news/20200605/lancet-retracts-hydroxychloroquine-study>

- The CDC is [engaged in COVID-19 data corruption](#).
- Many hospitalizations and deaths are falsely attributed to COVID-19. [\[here\]](#)
- Inflated COVID hospitalization reports: Many hospitals test all patients for COVID, regardless of why they came. Those who test positive are registered hospitalized for COVID.
- 45% of the FDA budget comes from drug companies seeking approval for drugs or devices. [\[here\]](#)
- FDA says it needs 75 years to fully release Pfizer COVID vaccine data [\[here\]](#)
- **The Fauci – Bill Gates multi-billion-dollar vaccine empire** [\[here\]](#)
- The [World Health Organization](#) (WHO) dictates COVID policies to most of the world. Its major financial contributor and [partner in global health initiatives is Mr. Gates](#): The Global Alliance for Vaccines and Immunization (GAVI).
- **Mr. Gates'** foundation was expelled from India for [vaccine exploitation of vulnerable persons](#).
- FAA vaccine policies break their own rules [\[here\]](#)
- European parliamentarians raise concerns about grave civil rights violations by governments using as the pretext of COVID-19. [\[here\]](#) [\[SP video\]](#)
- U.S. Senator Ron Johnson exposes the exploitation of COVID: [\[video\]](#) Dec 8, 2021

■ **Corrupt Drug Manufacturers**

- Pfizer has a [history of crimes](#).
 - \$2.3 Billion plea deal with federal prosecutors for false promotion of medicines.
 - \$430 Million fine for bribing doctors
 - \$142.1 Million for Racketeering fraud in its marketing of the drug.
 - Sued in a U.S. federal court for using Nigerian children as human guinea pigs without the parents' consent. Pfizer paid \$75 Million to settle in a Nigerian court. The company paid an additional undisclosed amount in the U.S. to settle charges here. Pfizer had violated international law, including the Nuremberg Convention established after WWII, due to Nazi experiments on unwilling prisoners.
- Researcher blows the whistle on data integrity issues in Pfizer's vaccine trials [\[here\]](#)
- Drug manufacturers are making an outrageous profit of billions with the vaccine and are seeking patents to hold exclusive rights and perpetuate vaccination [\[here\]](#).
- Vaccine manufacturers are exempt from **liability** for adverse effects.

Red Flag #4: Deception and Coercion

I list deception and coercion together because, in Satan's playbook, they make up a two-pronged attack: If he can't deceive us and we resist by questioning or offering alternatives to the official agenda, he will use coercion. We are seeing in real-time how the politics of persuasion give way to the iron fist. The President has threatened the unvaccinated telling them that "our patience is running thin."

■ **The myth of "A broad scientific consensus"**

We are told that there is “a broad scientific consensus” on how to approach the pandemic. The World Health Organization (WHO) and the Center for Disease Control (CDC) have tried to create such a consensus by setting themselves as the exclusive authorities on how to stop the pandemic. They tell us that they represent science and that we must “follow the science.” All who disagree with their narrative, no matter how qualified, are excluded from the “consensus” and are accused of “spreading misinformation.”

Dr. Robert Malone, pioneer in the development of the mRNA vaccine: **“Physicians who speak out are being actively hunted via medical boards and the press. They are trying to delegitimize us and pick us off one by one... this is not a “conspiracy theory” but “a fact.” “wake up.”** :

- [Data, Booster Shots, and the Shattered Scientific ‘Consensus’](#)
- Mark Mallet’s [Following the Science](#)

Despite government repression, **there are numerous renowned virologists and doctors who are risking everything to strongly oppose the use of the COVID-19 mRNA vaccines.** [See a partial list at the end of this article.](#) By silencing them, the oligarchs are showing their disregard for science.

How scientists and doctors are silenced

- The U.S. National Institute of Health (NIH) and the National Institute of Allergy and Infectious Diseases (NIAID) are the **biggest funders of medical and infectious disease research worldwide.** [\[here\]](#)
- Scientists and the institutions that hire them are financially dependent on the government and the pharmaceutical industry. As a result, those who oppose the official narrative face being fired, censored, slandered, or having their license revoked.

■ We were told:

- **Vaccines “Not mandatory”**
 - Mandatory vaccination went from a “conspiracy theory” to official policy.
 - Biden: “I wouldn’t demand it (vaccines) to be mandatory” [\[video\]](#)
- **“If you are vaccinated you are not going to get COVID”** [\[here\]](#)
 - Vaccination was billed as **the only way to return to normalcy.**
 - **Then:** The CDC said: “there is a **reduction of protection** over time” [\[CDC director\]](#), then came the “**booster shots,**” as often as every six months [\[here\]](#), which means a 6 billion annual profit for Big Pharma [\[here\]](#). The implementation of booster shots without adequate data prompted the resignation of two senior FDA officials [\[here\]](#). As of Dec 20, 2021, some countries have cut the booster intervals to 3 months.[\[here\]](#)
 -
- **“Masks for 100 days”**

- President-elect Joe Biden (Dec. 2020) called for Americans to wear a mask for 100 days so that, combined with vaccines, deaths will “drop off the edge.”[[here](#)]
- “I don’t think masks have to be made mandatory nationwide” [[here](#)]
- “The vaccinated need not wear masks and can go back to a normal life.” –Also reversed.

■ Herd immunity

Dr. Anthony Fauci claimed that when herd immunity is achieved, the disease will fade and life would return to normal. Dr. Fauci finally acknowledged that he had deliberately lied to get people vaccinated:

When polls said only about half of all Americans would take a vaccine, I was saying herd immunity would take 70 to 75 percent ... Then, when newer surveys said 60 percent or more would take it, I thought, "I can nudge this up a bit," so I went to 80, 85. We need to have some humility here We really don’t know what the real number is. I think the real range is somewhere between 70 to 90 percent. But, I’m not going to say 90 percent [[here](#)].

As of Dec 17, 2021, 73% of the USA population has been vaccinated. [[here](#)] What happened to herd immunity?

- “Herd immunity is not a possibility because it (virus) still infects vaccinated individuals” –Dr. Pollard, one of the lead researchers in the creation of the AstraZeneca vaccine. [[here](#)]

■ The cover-up of the origin of the virus

- We were told that it originated at a wet market and not from the Wuhan lab.
 - [The evidence of the origins of COVID-19 at the Wuhan lab](#). Also, [here](#) and [here](#).
- Then Dr. Fauci denied that the NIH funded gain of function research at the Wuhan lab. [[here](#)] Instead, the NIH [changed the definition](#). But that is not the only instance where they change definitions to control the narrative: Fauci says that the definition of “fully vaccinated” will also change. “[It’s going to be a matter of when not if](#).”
- Funding continued even after [French intelligence warned the U.S.](#) Dept. that they had grave concerns about China’s motivation for cutting back on agreed collaboration at the lab.
- Who is in charge of assuring that Dr. Fauci’s practices are ethical? His wife! She is the [head of the NIH’s Bio-Ethics Department](#).
- [President Biden](#) also lied on this subject.

- The government keeps [Dr. Anthony Fauci](#) as chief medical adviser, directing the COVID-19 policy after he lied under oath about his participation in the gain of function research and the NIH funding the Wuhan lab [\[here\]](#) 2 3, 4; 5; 6,7, 8.
- Chinese virologist whistleblower speaks up despite threats to her life [\[here\]](#)

■ Censorship

Mainstream Journalists have turned propagandists for the ideological agenda of the State.

- **Initiative to tackle “disinformation in real time.”** –BBC established the [Trusted news initiative](#) (TNI): A concerted effort by media to suppress all information that is not in accord with the official narrative. (partners include Facebook, Twitter, Reuters, and The Washington Post).
- The mainstream media is [subsidized by government payoffs](#) and [grants from Bill Gates](#) and other oligarchs. They are creating a **two-tier society** based on submission to the ideology of the New World Order.
- **Government/media collusion to discredit scientists** who questioned Fauci was revealed by The National Institute of Health emails. [\[American Institute for Economic Research\]](#)
- CDC sued for withholding data [\[here\]](#)
- A person can be fired for criticizing the dogmas of the State, whether it is COVID, abortion, LGTB agenda... Many have been fired.
- Or for criticizing other dogmas of the oligarchy: [Gov. of New York censors pro-life “misinformation”](#)
- **Intelligence agencies censor** “anti-vaccine propaganda.” [\[here\]](#) (12/02/21)
- **YouTube** gradually increases censorship of all that contradicts the COVID-19 agenda. [\[here\]](#) I know this personally because YouTube has canceled some of our videos. But this is nothing compared with what many have suffered. Prime targets are scientists and doctors. Their views are declared “dangerous” and “irresponsible.” They are vilified and accused of misinforming; they risk losing their jobs, licenses, and grants. Their accounts on social media are canceled.
- **Google and Amazon** set up search algorithms to favor the COVID-19 official narrative and bury opposing views. Instead of protecting citizens, Big Gov. [reinforces this practice.](#)

- **Twitter** Dr. Malone, a key scientist behind mRNA vaccines is kicked off Twitter. [\[here\]](#), another: [\[here\]](#)
- The so-called “**fact-checkers**” present themselves as the defenders of truth but twist it to support the agenda of the oligarchs.

Tactics:

■ **Condemnation and vitriol**, inciting fear and hate towards “the unvaccinated.”

- Media and President: The nation is suffering from a “pandemic of the unvaccinated.”
- A Baylor professor and frequent MSNBC and CNN guest published a paper suggesting it should be a **hate crime** to criticize Mr. Fauci or other scientists. [\[here\]](#) (It’s ok, of course, to criticize scientists who disagree with Mr. Fauci)
- President Biden:
 - “For the unvaccinated, you’re looking at a winter of severe illness and death for yourselves, your families, and the hospitals you may soon overwhelm.”
 - “All these people who have not been vaccinated, you have an obligation to yourselves, to your family, and, quite frankly — I know I’ll get criticized for this — to your country.” [\[here\]](#)

■ **Lumping together all critics of the vaccine, credible or not.**

- For example, to say “anti-vaxxers” believe there is a chip injected with the vaccines. (That is not true yet)

■ **Misrepresent the argument of the critics** [\[here\]](#)

These tactics have several objectives:

- To discredit all critics by creating the impression that the official narrative represents “**science**” and those who oppose it are **misinformed**, misled by conspiracy theories.
- To **deflect attention away from well-founded objections and solutions** so that people believe that the oligarchs offer the only hope.
- To **block debate**.
- To **justify their tyrannical practices** without resistance.
- **Pressure dissenters into submission**. —a caste system where those who do not submit to mandates become second-class citizens.

■ **Violent repression**

- **Police deployed dogs and water cannons on demonstrators**. ~Holland, Jan 2022. (it is illegal to have a gathering of more than two persons. [\[here\]](#))
- **FBI raid on journalist’s home**, confiscation of documents. [\[here\]](#)

■ **Vaccine passports**

These passports are a tool for the enforcement of vaccination policies. It enables the government to deny travel, work, entrance to stores and restaurants, etc. These are already implemented in several previously free countries. Passports may be implemented gradually until they are required to get groceries and medical treatment, as has already been proposed. Already millions of Americans have lost their jobs or are threatened.

- Suggesting such passports a few years ago would have been called a conspiracy theory.
- If the State can use a passport to force vaccination, it can use it to impose other measures. [\[here\]](#)

■ **Forced re-education**, a tool of tyrannies to deal with resistance

- Penn State Employees who refuse vaccination will go through compulsory re-education. [\[here\]](#)

■ **Concentration camps**

Calling them by another name does not change the reality, camps to detain persons with COVID already exist in Australia. [\[here\]](#) the US is also planning camps see. [official CDC site](#)

Then, President Biden: “There is no federal solution” (but he continues to mandate vaccines)

Red flag #5: Masks, lockdown, and vaccinating children

■ **Masks**

- There is no scientific evidence regarding the effectiveness of masks for people of any age. [\[here\]](#) The media persistently criticized Sweden during 2020 for not mandating lockdowns and masks. *Now, Big Media is silent about Sweden. Why? Because Sweden’s strategy is working. As of Sept 15, 2021, their per capita death rate due to COVID-19 is below the USA, Italy, Spain, United Kingdom, France, and a host of other countries that mandate masks and lockdowns.* [\[here\]](#)
- Imposing masks and lockdowns on children is particularly harmful, and mandating them does not follow the science. [\[here\]](#) [\[here\]](#)
- From the first wave in the spring of 2020, Sweden was the only Western country that did not close down all the schools, and they did not mandate masks or social distancing. Among the 1.8 million children in Sweden during this first wave, there were zero deaths from COVID. [\[here\]](#)
- “A child’s current chance of death from Covid-19 in America is lower than their chance of dying from a lightning strike or car accident.” Masks are causing severe psychological trauma. [\[here\]](#)
- But the push for masks continues: American Academy of Pediatrics, which depends on gov. money, endorsed the CDC’s recommendation for masking. They contradicted years of research and their own information and took it down from their website as “[part of a website migration](#)”. But don’t worry, they promised that they will republish an “updated” version. Another example of how data is being re-written to comply with ideology.

■ Lockdowns

- Lockdowns have increased illness and mortality [[here](#)].
- [The Great Barrington Declaration](#), signed by 15,468 medical & public health scientists and 45,609 medical practitioners, calls for a stop to lockdowns
- “We fail to find that SIP policy (lockdowns) saved lives. To the contrary, we find a positive association between SIP policies and excess deaths. We find that following the implementation of SIP policies, excess mortality increases.” [[here](#)]
- There is no relationship between lockdowns and virus control based on studies. [[here](#)]
- Five times more children committed suicide than died of COVID-19 during lockdown so far: [U.K. Study](#)
- [Expert statement on lock-downs](#) [[doctors4covidethics](#)]
- Researchers at Brown University found that mean I.Q. scores of young children born during the pandemic have tumbled by as much as 22 points, while verbal, motor and cognitive performance have all suffered due to lockdown. “Children born over the past year of lockdowns – at a time when the government has prevented babies from seeing elderly relatives and other extended family members, from socializing at parks or with the children of their parent’s friends, and from studying the expressions on the faces behind the masks of locals in indoor public spaces – have significantly reduced verbal, motor and overall cognitive performance compared to children born before, according to a new U.S. study. Tests on early learning, verbal development, and non-verbal development all produced results that were far behind those from the years preceding the lockdowns,”–Paul J. Watson [[here](#)]

■ Asymptomatic Transmission

- This is the reason for fear of contagion from persons without symptoms. It is used to validate having lockdowns and distancing required for all. But on Jun 7, 2021, Dr. Maria Van Kerkhove, head of the WHO’s emerging diseases and zoonosis unit, told a press conference that from the known research, the asymptomatic spread was “very rare.” “From the data we have, it still seems to be rare that an asymptomatic person actually transmits onward to a secondary individual.”[[here](#)] Confirmed by [Dr. Peter McCullough](#), Karina Acevedo W.[[Español](#)], [Dr. Mike Yeadon](#).

■ Vaccinating Children [[here](#)]

- Scientists have come together to inform and seek the protection of children against the vaccine [[TheUnityProject](#)] Doctors petition to halt vaccines for Children, pregnant women, and young adults [[CanadianCovidCareAlliance.org](#)]
- Fully vaccinated children ages 5 to 17 run a greater risk of hospitalization than the not vaccinated. Vaccinated children risk a severe illness called [myocarditis](#). In addition, the vaccinated have unknown future consequences.
- Children under 18 recovery from COVID: 99.995% [[here](#)].
- The assessment reported by [Public Health England](#), Sept 3, 2021: The health benefits from vaccination are . . . considered too small to support universal vaccination of healthy 12 to 15 year old at this time. For the vast majority of children, SARS-CoV-2 infection is

asymptomatic or mildly symptomatic and will resolve without treatment. Of the very few children aged 12 to 15 years who require hospitalization, the majority have underlying health conditions. There is evidence of an association between mRNA COVID-19 vaccines and myocarditis . . . The medium- to long-term effects are unknown, and long-term follow-up is being conducted. Also [\[here\]](#)

- “I cannot imagine how mass vaccination of our youngsters and children will not lead to an even more disastrous outcome of all the scientifically irrational and unjustifiable vaccination efforts. . . . It cannot be that highly knowledgeable vaccinologists don’t understand this clear-cut message. I can only shout at all of them, no matter their international reputation, the number of awards and recognitions they’ve gotten, the number of books they’ve written or high-ranked papers they’ve published in peer-reviewed journals: SHAME ON YOU FOR NOT STANDING UP!” [\[full article\]](#)

■ Natural Immunity

Over 100 million Americans have acquired natural immunity superior and longer-lasting than what is offered by vaccines, yet the government allows them no accommodation from the vaccine mandates. For them, vaccination has no benefit, only risks [\[here\]](#) [\[here\]](#). They have 2X or 3X more risk of adverse events [\[Dr. McCullough\]](#). Fauci has [no answer](#).

- 140 research studies attest to the superior strength and durability of natural immunity to Covid-19. [\[here\]](#)
- Natural immunity is more protective over time than vaccines. [\[here\]](#)
- Persons with natural immunity are at very low little risk of re-infection severe disease [\[here\]](#).
- Dr. Marty Makary, professor at Johns Hopkins University School of Medicine, “mandating vaccines for "every living, walking American" is, as of now, not well-supported by science.” Requiring the vaccine in people who are already immune with natural immunity has no scientific support.

■ No Informed Consent.

It is required to inform patients about possible adverse effects of any medicine but not for the COVID vaccine. Those who are forced to take the vaccine are not consenting and those who do consent are not informed.

■ Conclusion

The pandemic is shaking up the world; It is bringing to light what was hidden: Science and technology were turned into the gods of security, power, and wealth. The more we turn these gifts into gods the more we fall into confusion and chaos, anxiety and fear, all on account of an invisible virus. Will we, like the Pharaoh, continue to rely on gods and magicians? Will we fail to recognize the warnings of God? The pandemic is OUR opportunity to let go of the gods, turn to God, and learn to trust HIM.

The words of Benedict XVI are a light for the challenges we must face:

Dear friends, may no adversity paralyze you. Be afraid neither of the world, nor of the future, nor of your weakness. The Lord has allowed you to live in this moment of history so that, by your faith, his name will continue to resound throughout the world.⁹

Our Lord Jesus is with us always, in every decision, in each cross. He tells us:

Suffer all with me, no longer to but one, in my sacrifice of love.
